Basic Website Proposal

What do you need to have a website?
You need a domain name where people can find the address and a web-hosting where you can put all the content. I recommend below where to purchase or get the services. I hope it helps you to decide! You can still search other provider other than my recommendation. You also need a web design to match with your business. I also recommended a nice online store where you can buy professional and premium design.

Domain Name Registration
Select available domain name. [averaging from 10 USD] per year. You can also check their hosting package.
